€15k prizes to 15th place €100
Restricted to 35 Boats per day

Rossinver Fishery

The Fishery

The Rossinver Fishery Syndicate controls some of the finest large lough fishing in Ireland. The Fishery owns approximately one third of Lough Melvin which is 13 km long and no more than 3 km wide. All trout and char species are wild and the system has a good run of Atlantic salmon. The season starts on February the first for salmon and the fifteenth of February for trout. Within the fishery the south eastern bay of Rossinver is strictly reserved for fly fishing only. Trolling for salmon is permitted throughout the rest of the fishery. The Fishery encourages Catch and release.

The catch and release Cup 2024

The competition is a major event to promote the Catch & Release ethos as a successful competition method for the future. This is the largest Catch & Release competition (for Trout) ever held in Ireland, with a combined prize pot of approximately €15,000. It is an individual event, run over three heat days, Thursday 6th June, Friday 7th June, and Saturday 8th June, with the final on Sunday 9th June. Prize giving, draws and refreshments will all be provided at the "Competition Hub" at Rossinver Youth Community Centre.

...the future in our hands

The competition Hub
